

PRESS RELEASE

For Immediate Release

THE CHEVROLET VOLT EXTENDED RANGE ELECTRIC VEHICLE AND GREEN TECH SHOWCASED AT LIVE GREEN CONNECTICUT!

**The “Volt” Chevrolet’s Plug-In Electric Vehicle to Highlight
Connecticut’s Premier Sustainability Festival This September**

NORWALK, CT – (August 31, 2010) – Scot Weicker and Daphne Dixon, co-founders of Live Green Connecticut! announced the Chevy Volt will highlight the festival’s green transportation exhibit. “An extraordinary evolution in transportation is taking place. Live Green CT! provides the community with the opportunity to see and learn about the latest trends and achievements in sustainability and we have an amazing collection of automobiles that will be on display all week-end, such as The Chevy Volt. Unlike typical hybrids, known as parallel hybrids, the Volt is a series vehicle meaning only the electric motor powers the car at all times, the gas engine acts only as a generator, making electricity, to keep the batteries in a steady state of charge after 40 miles-it is an amazing vehicle,” Weicker and Dixon stated.

In addition to the Chevy Volt, a partial list of exhibitors in the green transportation group includes:

- **Tesla Motors, Inc.** and their 2010 electric Tesla Roadster 2.5 Sport, Sterling Silver with Black Executive
- **smartcenterFairfield** and their 100% electric smart car
- **McMahon Ford** with their Ford Escape and Ford Fusion
- **Honda of Westport** with their 2010 Honda Civic GX powered by natural gas and the new Honda CR-Z, the world's first "Sporty Hybrid"
- **New Country Toyota of Westport** and their 2010 Toyota Prius
- **Stamford Motorsports** displaying the latest in fuel efficient Honda Motorcycles, Scooters and Quiet Generators
- **Global Electric Motors** - the GEM car
- **Blu-Print Automotive Conversions** - Hybrid electric conversion
- **Mohegan Sun Solar Powered Mobile Marketing Unit**
- **Ken Edwards’ Tesla Roadster with Solar EV + PV Demonstration**

#more#

Weicker and Dixon continued: “Live Green CT! has something for everyone to enjoy. In addition to green technology, we are also featuring locally grown food, local businesses, children’s activities, holistic health and music. We invite everyone to come to the festival and enjoy everything it has to offer, including complimentary samples and giveaways and energy saving ideas.”

Live Green Connecticut! will take place at Taylor Farm Park in Norwalk, Connecticut September 18th and 19th. Featured attractions and exhibits include marine ecology and nature center exhibits, wind and solar displays, farmer’s market, hands-on kid’s activities, environmental and conservation organizations and speakers, alternative fuel vehicles, landscape and garden centers, green careers and education, holistic health, eco-art, eco-fashion, entertainment, food and beverages, and so much more!

Proceeds of Live Green Connecticut! will benefit the Norwalk Seaport Association, SoundWaters, Norwalk River Valley Trail and the Calf Pasture Beach Wind Power Project.

Live Green Connecticut! will be a fun-filled two day festival which will promote education, business, non-profit organizations, green technology, recycling, conservation, health and wellness, climate protection and sustainable living. Eco-friendly businesses will showcase their green products and services. Individuals and families will come away with money saving ideas and tax incentive opportunities.

In order to be environmentally sensitive, Live Green Connecticut! has established an interactive website for the schedule of events, exhibitor information, registration and news leading up the festival. Please visit: www.livegreenct.com.
